20 March 2016

Bravado Gaming wins the Telkom DGL Master series final.

Bravado gaming has come out victorious in the Telkom DGL Masters series, held at the rAge Expo in Cape Town, after beating Aperture Gaming in an intense battle that lasted just two rounds.

Bravado Gaming were seeded first at the start of this tournament with Aperture Gaming seen as the underdog going into this match. After barely beating Aperture in the first round with a score of 19-17 Bravado Gaming rallied to almost make a clean sweep of the second with a score of 16-2.

Bravado Gaming take home the first cash prize of R40 000. In second place Aperture Gaming win R20 000.

After the heated match winning team captain for Bravado, Andreas "Cent" Hadjipaschali, said "This tournament has been fantastic and big ups to Telkom for the sponsorship. We will ensure that we are side by side with them supporting them in this venture so that together we can compete on an international level and show the world what South Africans are made of."

"The first round was really close and I believe the guys should have taken it. We will be back next time stronger and better. Well done to Bravado – they deserved the win. They closed us out and it's a mistake we won't make again," says Aperture Gaming team manager Theuns "Alpha Renji" Renji Louw.

This is the first tournament for the 2016 gaming season ahead of the Masters main event taking place at rAge Expo, Johannesburg in October, with a prize pool of R1 million, the largest in South Africa's eSports history.

ABOUT TELKOM:

Telkom is a leading communications services provider in South Africa. We had consolidated operating revenue of R16.8 billion and normalised profit after tax of R1, 683 million for the period ended 30 September 2015. Total assets amounted to R41.9 billion and equity attributable to the owners of Telkom to R23.5 billion as of 30 September 2015. The group generated normalised free cash flow of R1.4 billion for the period ended 30 September 2015.

As of 30 September 2015, we had approximately 3.3 million telephone access lines in service and 1,030,441 ports connected via MSAN access. We offer business, residential and payphone customers a wide range of services and products, including:

- fixed-line retail voice services using PSTN (Public Switched Telephone Network) lines, including ISDN (Integrated Services Digital Network) lines, and the sale of subscription based value-added voice services and calling plans;
- fixed-line customer premises equipment rental and sales services both voice and data needs and these include PABX, Computers, Routers, Modems, Telephone handsets and other ancillary equipment;
- interconnection services, including terminating and transiting traffic from South African mobile operators, as well as from international operators and transiting traffic from mobile to international destinations;
- fixed-line data services, including domestic and international data transmission services, such
 as point-to-point leased lines, ADSL (Asymmetrical Digital Subscriber Line) services, packetbased services, managed data networking services and internet access and related
 information technology services;
- Data Centre Operations includes e-commerce, application service provider, hosting, data storage, e-mail and security services;
- W-CDMA (Wideband Code Division Multiple Access), a 3G next generation network, including fixed voice services, data services and nomadic voice services;
- mobile communication services, including voice services, data services and handset sales through our mobile navbar-brand called Telkom Mobile;
- information and communication services including cloud services, infrastructure services, workspace services, global service integration management and hardware and network equipment sales locally, in seven African countries, the UK and Dubai through Business Connexion Group; and
- other services including directory services, through Trudon (Pty) Ltd, wireless data services, through Swiftnet (Pty) Ltd.
- Convergence is one of our key strategic initiatives in building a sustainable future for Telkom.
 We will lead the provision of converged services in South Africa in support of our mission statement: Seamlessly connecting people to a better life.
