

# 24 July 2016

## Day two sees Bravado Gaming in the final and White Rabbit Gaming take on Aperture Gaming in last semi of DGL Masters Dota 2 tournament

In day two of the Telkom DGL Dota 2 Masters tournament being held this weekend in Sandton, there were no surprises as the last teams advanced.

In the first match of the day Aperture Gaming took on Xperts @ Total Chaos who went down 2-0. Aperture Gaming advance to the last semi-final to be played Sunday morning.

Later on in the day Veneration E-Sports lost 2-0 to White Rabbit Gaming who now take on Aperture in the last semi-final.

In the first semi-final Bravado Gaming beat Carbon eSports 2-0 to secure their spot in the final to be played at 15h00 on Sunday. They wait to see who they will take on between White Rabbit Gaming and Aperture Gaming.

After the match between Veneration E-Sports and White Rabbit Gaming the winning team captain had this to say: "Veneration Gaming has a lot of potential and spirit, and they were a fun team to play. We look forward to playing them again in a tournament. Now we're focusing on tomorrow's match against Aperture Gaming, we've met many times before and it's going to be a tight match." – Ryan "ChiDoWi" Lancaster.

"We faced a lot of obstacles coming into this match and definitely were the underdogs. I took up the captain title 4 days ago, and we've gone through a lot of roster changes in the past two weeks. We need to get a solid team and work on our synchronisation, but we look forward to facing White Rabbit again in another match," says Jeffrey EmperoR.G6" Fung, captain of Veneration E-Sports.

Tickets to watch the final live on the big screen at Ster-Kinekor Cavendish are still available and can be purchased [here](#).

**ABOUT TELKOM:**

Telkom is a leading communications services provider in South Africa. We had consolidated operating revenue of R37.3 billion and normalised profit after tax of R4,052 million for the year ended 31 March 2016. Total assets amounted to R46.8 billion and equity attributable to the owners of Telkom to R26.1 billion as of 31 March 2016. The group generated normalised free cash flow of R3.9 billion for the year ended 31 March 2016.

As of 31 March 2016, we had approximately 3.2 million telephone access lines in service and 1,077,939 ports connected via MSAN access. We offer business, residential and payphone customers a wide range of services and products, including:

- fixed-line retail voice services using PSTN (Public Switched Telephone Network) lines, including ISDN (Integrated Services Digital Network) lines, and the sale of subscription based value-added voice services and calling plans;
- fixed-line customer premises equipment rental and sales services both voice and data needs and these include PABX, Computers, Routers, Modems, Telephone handsets and other ancillary equipment;
- interconnection services, including terminating and transiting traffic from South African mobile operators, as well as from international operators and transiting traffic from mobile to international destinations;
- fixed-line data services, including domestic and international data transmission services, such as point-to-point leased lines, ADSL (Asymmetrical Digital Subscriber Line) services, packet-based services, managed data networking services and internet access and related information technology services;
- Data Centre Operations includes e-commerce, application service provider, hosting, data storage, e-mail and security services;
- W-CDMA (Wideband Code Division Multiple Access), a 3G next generation network, including fixed voice services, data services and nomadic voice services;
- mobile communication services, including voice services, data services and handset sales through our mobile navbar-brand called Telkom Mobile;
- information and communication services including cloud services, infrastructure services, workspace services, global service integration management and hardware and network equipment sales locally, in seven African countries, the UK and Dubai through Business Connexion Group; and
- other services including directory services, through Trudon (Pty) Ltd, wireless data services, through Swiftnet (Pty) Ltd.
- Convergence is one of our key strategic initiatives in building a sustainable future for Telkom. We will lead the provision of converged services in South Africa in support of our mission statement: Seamlessly connecting people to a better life.
