

18 March 2016

Flipsid3 Tactics lose out on Telkom DGL Master title.

In the second game of the Telkom DGL Masters series held today at rAge Expo in Cape Town, Flipsid3 Tactics were no match for the fourth seeded Carbon eSports.

After only two rounds of a best of three Carbon eSports beat Flipsid3 Tactics 16-6 in two straight games.

Team leader Rikus “ZipZipZa” Klue was naturally despondent after the loss. “We have had some recent changes to the team so we are still finding our feet when it comes to roles and responsibilities during a match. These are challenges that we will overcome with time. Hopefully by October we will stand a better chance at competing against the top seeded sides.”

Tomorrow sees second seed Damage Control take on seventh seed White Rabbit Gaming and third seed Aperture Gaming take on sixth seed Xperts @ Total Chaos. These two matches will determine the final spots in the semis to take on Bravado Gaming and Carbon eSports who have now advanced. The first of the semis will also be played tomorrow at rAge.

The remaining teams are:

- [Aperture Gaming](#)
- [Bravado Gaming](#)
- [CarboN eSports](#)
- [Damage Control](#)
- [Flipsid3](#)
- [White Rabbit Gaming](#)
- [Xperts@Total.Chaos](#)

All games will be streamed live on: http://www.twitch.tv/dgl_live and https://www.youtube.com/watch?v=b7_dwibjnCl.

ABOUT TELKOM:

Telkom is a leading communications services provider in South Africa. We had consolidated operating revenue of R16.8 billion and normalised profit after tax of R1, 683 million for the period ended 30 September 2015. Total assets amounted to R41.9 billion and equity attributable to the owners of Telkom to R23.5 billion as of 30 September 2015. The group generated normalised free cash flow of R1.4 billion for the period ended 30 September 2015.

As of 30 September 2015, we had approximately 3.3 million telephone access lines in service and 1,030,441 ports connected via MSAN access. We offer business, residential and payphone customers a wide range of services and products, including:

- fixed-line retail voice services using PSTN (Public Switched Telephone Network) lines, including ISDN (Integrated Services Digital Network) lines, and the sale of subscription based value-added voice services and calling plans;
- fixed-line customer premises equipment rental and sales services both voice and data needs and these include PABX, Computers, Routers, Modems, Telephone handsets and other ancillary equipment;
- interconnection services, including terminating and transiting traffic from South African mobile operators, as well as from international operators and transiting traffic from mobile to international destinations;
- fixed-line data services, including domestic and international data transmission services, such as point-to-point leased lines, ADSL (Asymmetrical Digital Subscriber Line) services, packet-based services, managed data networking services and internet access and related information technology services;
- Data Centre Operations includes e-commerce, application service provider, hosting, data storage, e-mail and security services;
- W-CDMA (Wideband Code Division Multiple Access), a 3G next generation network, including fixed voice services, data services and nomadic voice services;
- mobile communication services, including voice services, data services and handset sales through our mobile navbar-brand called Telkom Mobile;
- information and communication services including cloud services, infrastructure services, workspace services, global service integration management and hardware and network equipment sales locally, in seven African countries, the UK and Dubai through Business Connexion Group; and
- other services including directory services, through Trudon (Pty) Ltd, wireless data services, through Swiftnet (Pty) Ltd.
- Convergence is one of our key strategic initiatives in building a sustainable future for Telkom. We will lead the provision of converged services in South Africa in support of our mission statement: Seamlessly connecting people to a better life.
