

19 March 2016

Semi-final line up decided for Telkom DGL Master series.

The semi-final teams have been decided after four intense quarter final matches. In the first match of the day, and the third quarter final, of the Telkom DGL Masters series held at rAge Expo in Cape Town, White Rabbit Gaming lost out to Damage Control. In the second match of the day Xperts @ Total Chaos (XTC) lost out to Aperture Gaming.

Despite a valiant effort, and coming back from being 11 – 4 down at half time, White Rabbit lost two straight games 16-14 and 16-4 respectively.

In an interview with team captain Wayne “Craan” Smith he said he was proud of his teams overall performance. “We built our strategy on watching demos of how Damage Control play and targeting specific members to fight. This worked on one of the maps but not the other. Damage Control are a strong side and we wouldn’t be surprised if they took this all the way to finals.”

In the second game XTC lost two straight games 16-8 and 16-6 respectively. The team took the loss hard with the captain saying they went into it believing they would win. “We are not going to make excuses – we could have played better but the good thing is we kept the communication going within the team even when the score didn’t look so good. We can only get stronger from here,” says Johan xiN Willemse.

The first semi-final takes place this afternoon with Bravado Gaming taking on Carbon eSports. Tomorrow morning will be the second semi-final with Aperture Gaming playing Damage Control to decide the final.

The remaining teams are:

- [Aperture Gaming](#)
- [Bravado Gaming](#)
- [CarboN eSports](#)
- [Damage Control](#)

All games will be streamed live

ABOUT TELKOM:

Telkom is a leading communications services provider in South Africa. We had consolidated operating revenue of R16.8 billion and normalised profit after tax of R1, 683 million for the period ended 30 September 2015. Total assets amounted to R41.9 billion and equity attributable to the owners of Telkom to R23.5 billion as of 30 September 2015. The group generated normalised free cash flow of R1.4 billion for the period ended 30 September 2015.

As of 30 September 2015, we had approximately 3.3 million telephone access lines in service and 1,030,441 ports connected via MSAN access. We offer business, residential and payphone customers a wide range of services and products, including:

- fixed-line retail voice services using PSTN (Public Switched Telephone Network) lines, including ISDN (Integrated Services Digital Network) lines, and the sale of subscription based value-added voice services and calling plans;
- fixed-line customer premises equipment rental and sales services both voice and data needs and these include PABX, Computers, Routers, Modems, Telephone handsets and other ancillary equipment;
- interconnection services, including terminating and transiting traffic from South African mobile operators, as well as from international operators and transiting traffic from mobile to international destinations;
- fixed-line data services, including domestic and international data transmission services, such as point-to-point leased lines, ADSL (Asymmetrical Digital Subscriber Line) services, packet-based services, managed data networking services and internet access and related information technology services;
- Data Centre Operations includes e-commerce, application service provider, hosting, data storage, e-mail and security services;
- W-CDMA (Wideband Code Division Multiple Access), a 3G next generation network, including fixed voice services, data services and nomadic voice services;
- mobile communication services, including voice services, data services and handset sales through our mobile navbar-brand called Telkom Mobile;
- information and communication services including cloud services, infrastructure services, workspace services, global service integration management and hardware and network equipment sales locally, in seven African countries, the UK and Dubai through Business Connexion Group; and
- other services including directory services, through Trudon (Pty) Ltd, wireless data services, through Swiftnet (Pty) Ltd.
- Convergence is one of our key strategic initiatives in building a sustainable future for Telkom. We will lead the provision of converged services in South Africa in support of our mission statement: Seamlessly connecting people to a better life.
