Telkom doubles data on Smart Broadband LTE, keeps prices unchanged.

Telkom today announced that they will double the data allocation on all their Smart Broadband LTE prepaid and post-paid deals while leaving prices untouched.

This promotional offer is immediately available to both new and existing LTE prepaid and LTE contract customers purchasing these bundles will be able to reap the benefits.

"Telkom has worked hard to provide high quality products targeted at our consumers at reduced prices. This has ensured that we drastically reduce the cost to communicate and broaden access to ICT services for many South Africans," said Attila Vitai, CEO of Telkom Retail.

The Doubled Data LTE/LTE-A Once-Off pre-paid and post-paid bundles on offer are:

Bundles Size	Description	Data Allocation	Price
SmartBroadband Wireless 10GB	10GB anytime and 10GB Night Surfer	R249	
SmartBroadband Wireless 20GB	20GB anytime and 20GB Night Surfer	R349	
SmartBroadband Wireless 40GB	40GB anytime and 40GB Night Surfer	R449	
SmartBroadband Wireless 60GB	60GB anytime and 60GB Night Surfer	R549	
SmartBroadband Wireless 100GB	100GB anytime and 100GB Night Surfer	R749	
SmartBroadband Wireless 200GB	200GB anytime and 200GB Night Surfer	R1049	

To make the purchasing of the prepaid bundles more convenient for customers Telkom provides various ways in which to make the purchase. Customers can purchase their once-off and recurring LTE/LTE-A prepaid bundles by using the USSD code *180# from their cell phone, or via the self-service portal, Telkom App (which is only supported by IOS and Android) or by asking a consultant in a Telkom store. Existing Telkom LTE contract subscribers will be able to migrate to these Double Data deals in order to benefit from the double data allocations at current prices.

"All South Africans want more affordable, high speed connections, and effective and efficient communication means. Our doubling of data on our Smartbroadband LTE pre-paid and post-paid packages with no impact on the pricing is a further testament of Telkom's commitment to reduce the cost to communicate and provide all South Africans with greater internet access," said Vitai.

ABOUT TELKOM:

Telkom is a leading information and communications technology services provider in South Africa. We had consolidated operating revenue of R41 billion and normalised profit after tax of R3 907 million for the year ended 31 March 2017. Total assets amounted to R48.0 billion and equity attributable to the owners of Telkom to R27.6 billion as of 31 March 2017.

As of 31 March 2017, we had approximately 3.0 million telephone access lines in service and 1,329,450 ports connected via MSAN access. We offer business, residential and payphone customers a wide range of services and products, including:

- fixed-line retail voice services using PSTN (Public Switched Telephone Network) lines, including ISDN (Integrated Services Digital Network) lines, and the sale of subscription based value-added voice services and calling plans;
- fixed-line customer premises equipment rental and sales services both voice and data needs and these include PABX, Computers, Routers, Modems, Telephone handsets and other ancillary equipment;
- interconnection services, including terminating and transiting traffic from South African mobile operators, as well as from international operators and transiting traffic from mobile to international destinations;
- fixed-line data services, including domestic and international data transmission services, such as point-to-point leased lines, ADSL (Asymmetrical Digital Subscriber Line) services, packet-based services, managed data networking services and internet access and related information technology services;
- Data Centre Operations includes e-commerce, application service provider, hosting, data storage, e-mail and security services;
- W-CDMA (Wideband Code Division Multiple Access), a 3G next generation network, including fixed voice services, data services and nomadic voice services;
- mobile communication services, including voice services, data services and handset sales through our mobile brand called Telkom Mobile;
- information technology services including converged communication, IT service solutions, application solutions, IT hardware and software and industrial technology service sales locally, in seven African countries, the UK and Dubai through Business Connexion Group; and other services including directory services, through Trudon (Pty) Ltd, wireless data services, through Swiftnet (Pty) Ltd.
- Convergence is one of our key strategic initiatives in building a sustainable future for Telkom. We will lead the provision of converged services in South Africa in support of our mission statement: Seamlessly connecting people to a better life.
