iPhone 8 and iPhone 8 Plus arrive at Telkom on 20 October 2017

Telkom today announced an overhaul of its fixed line product offering with the launch of Unlimited Home Internet and voice plans.

Customers have been able to pre-order iPhone 8 and iPhone 8 Plus since 13 October 2017 at www.telkom.co.za and at Telkom stores, and both will be available in stores starting on 20 October 2017.

"We know that many of our customers are looking forward to the new iPhone 8 and iPhone 8 Plus and we are excited to offer this premium device on South Africa's best data network," said Telkom's Consumer and Small Business CEO Attila Vitai.

iPhone 8 and iPhone 8 Plus are a new generation of iPhone featuring a new glass and aluminum design in three beautiful finishes - space gray, silver and a new gold - made with the most durable glass ever in a smartphone, Retina HD displays, A11 Bionic chip and is designed for the ultimate augmented experience. The world's most popular camera gets even better and wireless charging brings a powerful new capability to iPhone. iPhone 8 Plus features dual 12-megapixel cameras and introduces Portrait mode with Portrait Lighting, bringing dramatic studio lighting effects to iPhone, allowing customers to capture stunning portraits with a shallow depth of field effect in five different lighting styles.

ABOUT TELKOM:

Telkom is a leading information and communications technology services provider in South Africa. We had consolidated operating revenue of R41 billion and normalised profit after tax of R3 907 million for the year ended 31 March 2017. Total assets amounted to R48.0 billion and equity attributable to the owners of Telkom to R27.6 billion as of 31 March 2017

As of 31 March 2017, we had approximately 3.0 million telephone access lines in service and 1,329,450 ports connected via MSAN access. We offer business, residential and payphone customers a wide range of services and products, including:

- fixed-line retail voice services using PSTN (Public Switched Telephone Network) lines, including ISDN (Integrated Services Digital Network) lines, and the sale of subscription based value-added voice services and calling plans;
- fixed-line customer premises equipment rental and sales services both voice and data needs and these include PABX, Computers, Routers, Modems, Telephone handsets and other ancillary equipment;
- interconnection services, including terminating and transiting traffic from South African mobile operators, as well as from international operators and transiting traffic from mobile to international destinations;
- fixed-line data services, including domestic and international data transmission services, such as point-to-point leased lines, ADSL (Asymmetrical Digital Subscriber Line) services, packet-based services, managed data networking services and internet access and related information technology services;
- Data Centre Operations includes e-commerce, application service provider, hosting, data storage, e-mail and security services;
- W-CDMA (Wideband Code Division Multiple Access), a 3G next generation network, including fixed voice services, data services and nomadic voice services;
- mobile communication services, including voice services, data services and handset sales through our mobile brand called Telkom Mobile;
- information technology services including converged communication, IT service solutions, application solutions, IT hardware and software and industrial technology service sales locally, in seven African countries, the UK and Dubai through Business Connexion Group; and other services including directory services, through Trudon (Pty) Ltd, wireless data services, through Swiftnet (Pty) Ltd.
- Convergence is one of our key strategic initiatives in building a sustainable future for Telkom. We will lead the provision of converged services in South Africa in support of our mission statement: Seamlessly connecting people to a better life.
