

## Communication turned seamless with myTelkomTalk.

*Your easy guide to downloading, scanning and calling.*

Make calling simpler with myTelkomTalk, Telkom's internet-based softphone solution. Experience smart, affordable calling that turns your device into a powerful communication tool. These five easy steps will walk you through the setup so you're ready to call within minutes.

### **1** Download and install myTelkomTalk

Search for “myTelkomTalk” in your device’s app store (Google Play or Apple App Store).

Look for the blue phone icon, then download and install the app.

Allow all requested permissions (e.g., contacts) so the app works perfectly.

### **2** Open the app and scan your QR code

Once downloaded and installed, open myTelkomTalk. On the login screen, tap “Scan QR”.

Use your phone’s camera to scan the unique QR code that was sent to you.

***Possible begins here***

### **3** *Accept the terms and conditions*

After scanning, you'll be prompted to view the terms and conditions and the privacy statement.

Review and accept both to continue using the myTelkomTalk app.

### **4** *Start making calls*

Once accepted, the app will automatically complete your setup.

When the dial pad appears, you're ready to make and receive calls using your calling plan's reduced VoIP rates.

### **5** *Enjoy seamless connectivity*

Your myTelkomTalk app is now fully activated. Call family, friends or colleagues with ease from anywhere and enjoy clear, affordable VoIP calls from your mobile device.
